Fire, heat and relaxation at Irma

We are particularly proud of our wellness and water world which features a large indoor pool, two warm brine pools, a heated outdoor pool, outdoor whirlpool, 6 saunas, as well as a range of wellness and beauty services and a cozy relaxation rooms. The large tanning lawns around the pools offer enough deck chairs for all guests and perfectly round off the relaxation offer.

Take the time to refresh your body and mind. At our spa we have created an oasis of peace where you will spend relaxing and find your balance, escaping from the daily life.

Indoor pool at the fireplace

You can swim in the large indoor pool in the spacious, daylong indoor swimming hall. There is a large open fireplace, where cozy wood logs patter and thick upholstered sofa beds wait for a cozy slumber. Such a generous indoor swimming pool can be found in hotels rather rare: the pool has a size of 17 x 7 meters and allows proper sporty swimming at 29°C.

Freshwater outdoor pool

Surrounded by beautiful garden levels, this 20 x 9 meter pool provides refreshing outdoor bathing and is heated to a pleasant 25°C from May to October. Increase your well-being and relax your muscles and tissues. The extensive sunbathing lawns with sun loungers invite you to a long sunbathing session.

Full moon bath

Have you ever taken an outdoor bath at full moon? That almost has something mystical! You can experience it with us in the Irma. The popular full-moon baths take place once a month - each on a full moon! In the indoor pool, you will hear soft music to chill out and dream. Immerse yourself in this truly cozy atmosphere by candlelight and log fires and enjoy the view of the mountains illuminated by the full moon.

Bubbling outdoor jacuzzi

Even the ancient Egyptians trusted the invigorating effect of the warm water bath. We continue this tradition in the bubbling jacuzzi. Feel well in the warm water. Headache and neck pain are alleviated, tiredness and dullness always cheated. Enjoy!

Outdoor seawater pool

Swim in the first seawater pool of South Tyrol heated all the year round 32°C warm salt water in open air. The various massage jets knead your body from the shoulders to the feet. The neck showers relieve tension that sits higher up. If you just want to relax, you can try the bubble seats and bubble beds. One thing is certain: rest is here in the foreground.

Brine bath

Enthusiastic are wellness-conscious bathing-mixes and watermen from the brine-bubble bath at 36°C outdoors. You marvel at how wonderful „carefree“ you splash in the 8% salt water. The dissolved trace elements and minerals make the skin firmer, the body slimmer and the soul more cheerful. In the evening, the steam settles like fog over the pool and wraps it in a mysterious atmosphere.

Outdoor Tepidarium

If you do not like heat so much, then choose this regeneration bath, which generates an artificial fever temperature with a gentle radiant heat of approx. 39°C. This temperature range creates the optimal conditions for relieving and building up your immune system. The regeneration process begins as soon as you feel comfortably warm through the gentle heat of the radiant walls. Also for the human psyche, this temperature range including orange fragrance is particularly beneficial. Unlimited length of stay.

Finnish outdoor sauna

For curing, sweating and revitalizing, you go into the sauna of the classic kind. If you like it hot and intense, it comes at 90°C sweat quickly. This raises the body temperature - similar to mild fever - by about 1 degree. A cold shower will get your circulation going again. Subsequently, it is advisable to gently relax on a heat therapy couch or on the waterbeds.

Camomile grotto

Mild heat and moist steam mist your body, nourish skin, hair and respiratory tracts. Just close your eyes, inhale precious camomile extracts and relax.

New, enlarged finnish biosauna

Ideal for people with a preference for rather dry saunas, but the temperature of the classic Finnish cabin is too high. Temperature: 70-80°C. The soul warms up and draws new vitality.

Laconium

As Laconium, this sweat bath form has been handed down to us from Roman history. Already the Roman patricians appreciated the excellent purification and detoxification possibilities of the sweat bath based on pure radiant heat. At about 65°C you start to perspire intensively after 15 to 20 minutes. Due to the slow heating of the body, the purification process is initiated very harmoniously. After a water pour, the circulation comes to life, the sweating process is accelerated, and you feel completely well.

Ottoman steam bath

Immerse yourself in the thousand year old bathing pleasure of the Sultanate on the Bosphorus. Let yourself be enchanted by the glittering world full of water vapor, exotic aromas and pleasant radiant heat in hot, humid air. After about 10 minutes of sweating, you can refresh yourself with cold water gushes. For this part of the bath you should take 20-30 minutes. A cool rush of water activates and refreshes your body.

Alpine herb steam bath

In addition to the classic finnish sauna, especially the herbal steam bath has established. Even the Romans recognized the relaxing effect of the steaming heat, which has a positive effect on hair, skin and respiratory organs. At a temperature of 50°C and a pleasant humidity prevail ideal conditions for physical regeneration. In particular, in conjunction with the herbal steam, it contributes to the relief of colds.

Spa Etiquette

Good to know

If you have not yet experienced spa treatments, the first visit to a spa is like an adventure - including the excitement! We want you to enjoy your time with us and hope that the following information will be of use to you. Out of respect for other guests, please speak softly in all areas of the spa. Beverages in glasses and snacks are not permitted in the Spa and wellness area. For safety reasons, drinks are served in plastic cups. Smoking is not allowed anywhere in the spa area. We request that you do not use mobile phones, laptops, cameras or video cameras.

Special requests

We will make your dreams come true! If you cannot find your perfect treatment in the spa brochure, get in touch with our spa reception. We are happy to provide everything from individual treatments to all-day packages.

Take time

Prior to your treatment you can enjoy a cup of tea in the Wellness Relax Lounge. One of our staff members will then come and pick you up..

Take a shower

It's nice to use the shower before your treatment. It will freshen you up before your treatment. This step is especially important if you've spent time in a hot tub or pool, which has chlorinated water. You want to get those chemicals off, not have them massaged in.

Booking

We recommend booking your treatment three weeks in advance. Our professionally trained staff is looking forward to advising you individually. Daily from 8 am to 7 pm we will meet your specific wishes to make your stay at the Irma SPA a unique experience. Furthermore, you can get information about SPA products and coins for the solarium at the SPA reception.

Check-in

In order to be able to begin all treatments on time, please arrive at the spa 15 minutes before your appointment. In consideration of following appointments, treatments will be shortened in the case of late arrival. We ask for your understanding in this matter.

Clothing during treatment

In your room we have provided a robe, slippers and a towel. Sneakers and sports clothing are necessary if you would like to make use of our gym facilities. Out of respect for other guests, we ask that you wear swimwear when at the pool area. For massages, cosmetics and body treatments, your body will be covered. Only the part of the body which is being treated will be exposed.

Cancellation

If for any reason you will not be able to keep your appointment, please cancel at least 24 hours prior; or you will be responsible for 100% of the treatment costs.

Speak up about what you want

Massage therapists are trained to respect boundaries and use proper draping techniques, so either should be fine. During the massage, feel free to speak up on anything you would like to be different -- more pressure, less pressure, quieter music, a blanket if you're cold, turning the table warmer off. Your comfort is the most important thing, and your therapist is there for you.

Your health matters

Please communicate health conditions such as high blood pressure, allergies, pregnancy or any other health related concerns you may have when making your appointment. We do not recommend the consumption of alcohol before or directly after spa treatments. Please consult your doctor before using the spa heat and water facilities or exercise equipment if under medical supervision or if you are taking medication. For Mom's to be, we have specifically designed treatments to care for both of you. Please allow our therapists to guide you in selecting which treatments are most suitable for you during this special time. We recommend that you drink lots of water after your spa treatment to help accelerate the elimination of toxins.

Valuables

We do not assume any liability for personal items and recommend you leave valuables in the safe in your hotel room or suite.
